REPORT of the **BOARD OF MANAGEMENT**

For the Year Ended 31st December, 1943.

The Board of Management have much pleasure in presenting the Fiftieth Annual Report and Audited Statement of Accounts and Balance Sheet for the year ended 31st December, 1943.

GENERAL.

FIFTY YEARS OF SERVICE.

This report records the completion of fifty years of service and uninterrupted progress by the Hospital. During this time great strides have been made, and the work and needs of the Hospital have increased enormously.

In order that Donors and Subscribers may appreciate the increase in the work done the following figures are set forth :—

1895 (The first full year the Hospital was occupied)—

69 In-patients	34 Out-patient attendances
----------------	----------------------------

1943—

6,336 In-patients	77,689 Out-patient attendances
-------------------	--------------------------------

Expenditure on Maintenance—

1895.....	£614 16s. 1d.
-----------	---------------

1943.....	£55,832 11s. 1d.
-----------	------------------

During the Great War 1914-1919 the Hospital rendered a great service to members of the Armed Forces which merited the thanks of the Army Council, and again in the present War the greatly increased and improved services and resources of the Hospital are available to help in meeting any calls which may be made.

WHITE PAPER.

The publication of the White Paper has drawn attention to the necessity for the provision of a comprehensive National Health Service, and has paid high tribute to the service which the voluntary hospitals have rendered for so many years.

Successive Ministers of Health (including the present Minister) have promised that voluntary hospitals shall enjoy the status of full partnership in the framing and operation of the hospital part of a comprehensive health service.

The position which the hospitals will occupy is not clear from the White Paper, but this hospital is, and always has been, ready and willing to co-operate with any agency in ensuring the fullest and most readily available service for the sick and injured.

Many evidences throughout the history of the hospital bear testimony not only to the desire to co-operate, but give practical evidence of what has been done, and what has been accomplished.

PROGRESS.

Although War conditions have made development difficult the Board of Management in conformance with its fixed policy of progress has at all times taken advantage of every opportunity to improve and increase the service of the Hospital.

During the year the following have been established :—

Gynaecological Department.

The number of Gynaecological cases increased to such proportions that it became necessary to separate this type of work from that of the general Surgical Department of the Hospital.

Mr. R. Everett, M.B., Ch.B., F.R.C.S. (Edin.), M.R.C.O.G., was appointed first Honorary Gynaecologist and much progress has been made.

Tuberculosis.

Blackpool is no exception to the general position in that the accommodation for patients suffering from pulmonary Tuberculosis is very inadequate. The Corporation, always anxious to meet their obligations to the full, approached the Board of Management with a view to additional accommodation for such cases being provided at the Hospital. This request met with an immediate reply from the Board of Management that subject to the Ministry of Health approving the use of one of the annexes for the reception of such cases they would welcome the opportunity of providing the accommodation.

The Ministry of Health were duly approached and readily agreed to the proposals which were made, and on the 23rd August, 1943, Annexe "A" containing twenty-two beds was formally opened by Alderman D. J. Bailey, J.P., Chairman of the Health Committee.

The Ward has helped to meet a very real need, and has demonstrated by the readiness with which agreement was reached and the smoothness with which the arrangement is working, how close is the co-operation between the Health Committee of the Corporation and the Board of Management of the Hospital.

Superficial Therapy.

The X-Ray Department is completely equipped with the exception of superficial X-Ray Therapy machine. The need for such apparatus has increased, and although deliveries are very uncertain the Board of Management has placed an order for a machine, the cost of which will be approximately £1,000.

ANNEXE.

Rehabilitation.

The Ministry of Health has for some time encouraged the establishment of Rehabilitation Departments, the object of which is to rehabilitate the sick and injured so that they may resume their normal life and occupation at the earliest possible moment.

Owing to shortage of accommodation the Board of Management had been unable fully to develop this valuable service but again the Ministry of Health greatly assisted by granting permission for one of the annexes which they erected on land adjoining the Hospital, to be used for this purpose.

The department is functioning efficiently and filling a very real need in the life of the community, and is under the direction of Mr. W. Lamont, F.R.C.S., Honorary Orthopaedic Surgeon.

Additional Annexes.

During the year additional Ministry of Health annexes have been used for the reception of general medical and surgical patients in order to relieve the position with regard to patients awaiting admission.

A.R.P.

During the year the A.R.P. Services of the Hospital and the whole of the arrangements for meeting any emergency which may arise have been kept in a state of readiness.

In this connection the Board would direct the attention of the Donors and Subscribers to the very valuable services rendered by the volunteer Stretcher Bearers and other personnel, who have been enrolled. Not only do these volunteers assist in connection with war-time duties, but they have been particularly helpful in day-to-day help in the increased work of the Hospital.

BLACKPOOL CORPORATION.

In addition to the opening of the Tuberculosis Ward referred to earlier in the report there have been many evidences of the desire of the Blackpool Corporation to assist the work of the Hospital. The greatest possible goodwill exists between the Corporation and the Hospital, and the Board desire to record their thanks for all the help that has been given.

Very valuable gifts of vegetables, etc., have been received from the Parks Department, which have been thoroughly appreciated by the patients and staff, and have resulted in a considerable saving in expenditure on vegetables.

The Corporation has kindly undertaken the care of the grounds of Whinney Heys Hall, which is at present used as a Night Nurses' Home.

BLOOD TRANSFUSION SERVICE.

The co-operation of the Blackpool and Fylde Blood Transfusion Service in enrolling donors, and holding bleeding sessions is very greatly appreciated.

This life-saving service is now helping the Hospital to save many lives.

The Board of Management joins the Blood Transfusion Service in appealing for an increased number of donors in order that adequate supplies of blood and plasma may be maintained, not only for the use of residents in Blackpool and the Fylde, but also for the use of the fighting forces in this Country and overseas.

CONTRIBUTORY SCHEME.

The income to the Contributory Scheme continues to increase and in order to assist the wives and dependents of contributors who have joined the Services the Board of Management renewed the resolution passed twelve months earlier, ensuring that, without further contribution, the wives and dependent children of contributors now serving with His Majesty's Forces are maintained in full benefit without further payment.

ALMONERS.

In the last Report the Board informed the Donors and Subscribers of the appointment of an Almoner and drew attention to the value of the work which was being done.

Social welfare work and other help given has been very greatly appreciated by the patients and their friends and has indeed contributed to the general recovery and welfare of the patients.

WORK OF THE YEAR.

Particulars of the numbers of patients treated in each Department are given on pages 16 and 17, together with figures for the previous year for purposes of comparison.

Reference is again made to the list of patients awaiting admission for operation. Whilst it has not been possible to deal with the lists entirely it is encouraging to note that substantial progress has been made in the last twelve months.

Every effort has been made by the Medical Staff to reduce the lists, and reference to the number of admissions and operations will confirm this.

FINANCE.

The increased work of the Hospital, and the constantly increasing prices of commodities have occasioned an increased expenditure which has been met by the general contributions of the public of Blackpool and district.

The financial position is as follows :—

The members of the Board of Management wish to place on record their gratitude for the magnificent support which has been given by all sections of the community during the fifty years that the Hospital has served the public, and especially during the year 1943, which has been in every way a record.

As in previous years the Board wishes to extend to all individuals, Committees and other bodies of persons who have contributed individually or have joined with others in raising funds for the Hospital, an expression of their very warmest thanks. In addition to the contributions which have been expended in maintaining the Hospital there have been innumerable gifts in kind, many of which have been most valuable and opportune. There have also been extremely valuable gifts of service, and of kindly actions towards the Hospital, and especially in assisting patients.

To each and all the Board extend their very hearty thanks, and look forward confidently to the future in the knowledge that the Hospital in rendering an increasingly useful service will merit the confidence and support of the public which it serves.
